SOLUTION APPROACH

Technical Architecture

Why Public Cloud?

COST SAVING

- Pay only for operational cost vs. ownership cost
- Pay only for usage vs over provisioning

FLEXIBILITY

- Change resource configuration as needed
- Auto scale entire infrastructure up or down (automatically)

SCALABILITY

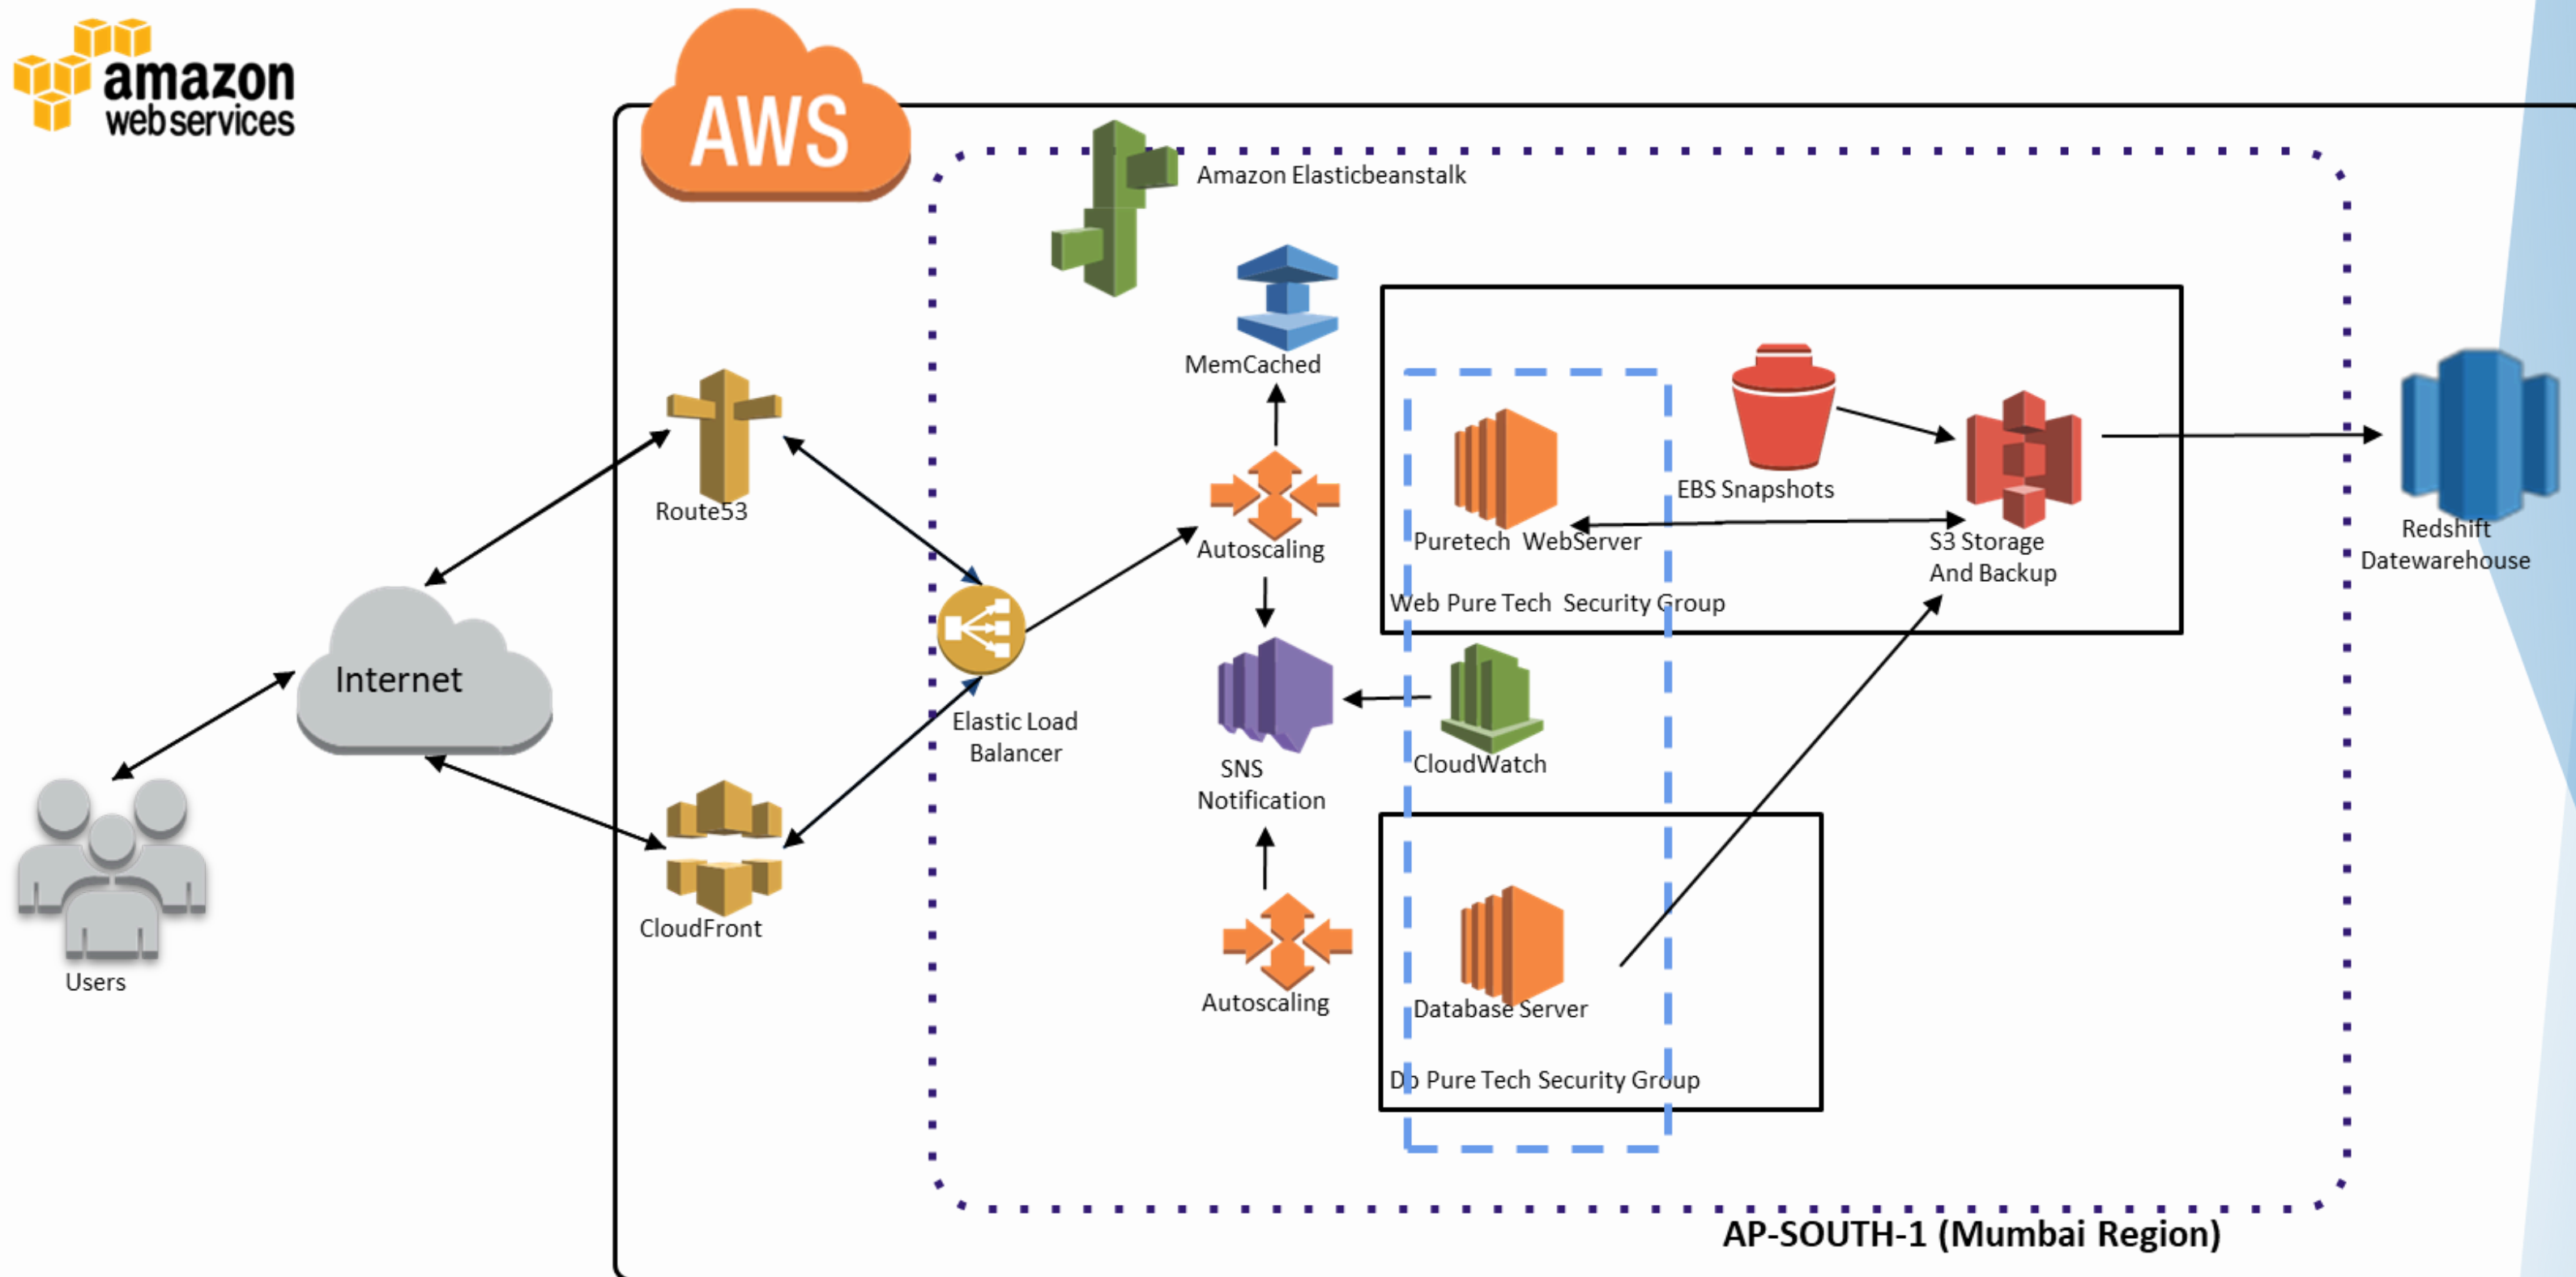

- Rapid expansion local & global
- Disaster recovery

TRAINING

- Set up lab as needed
- Try new features

Micraft Solutions Network Infrastructure Architecture

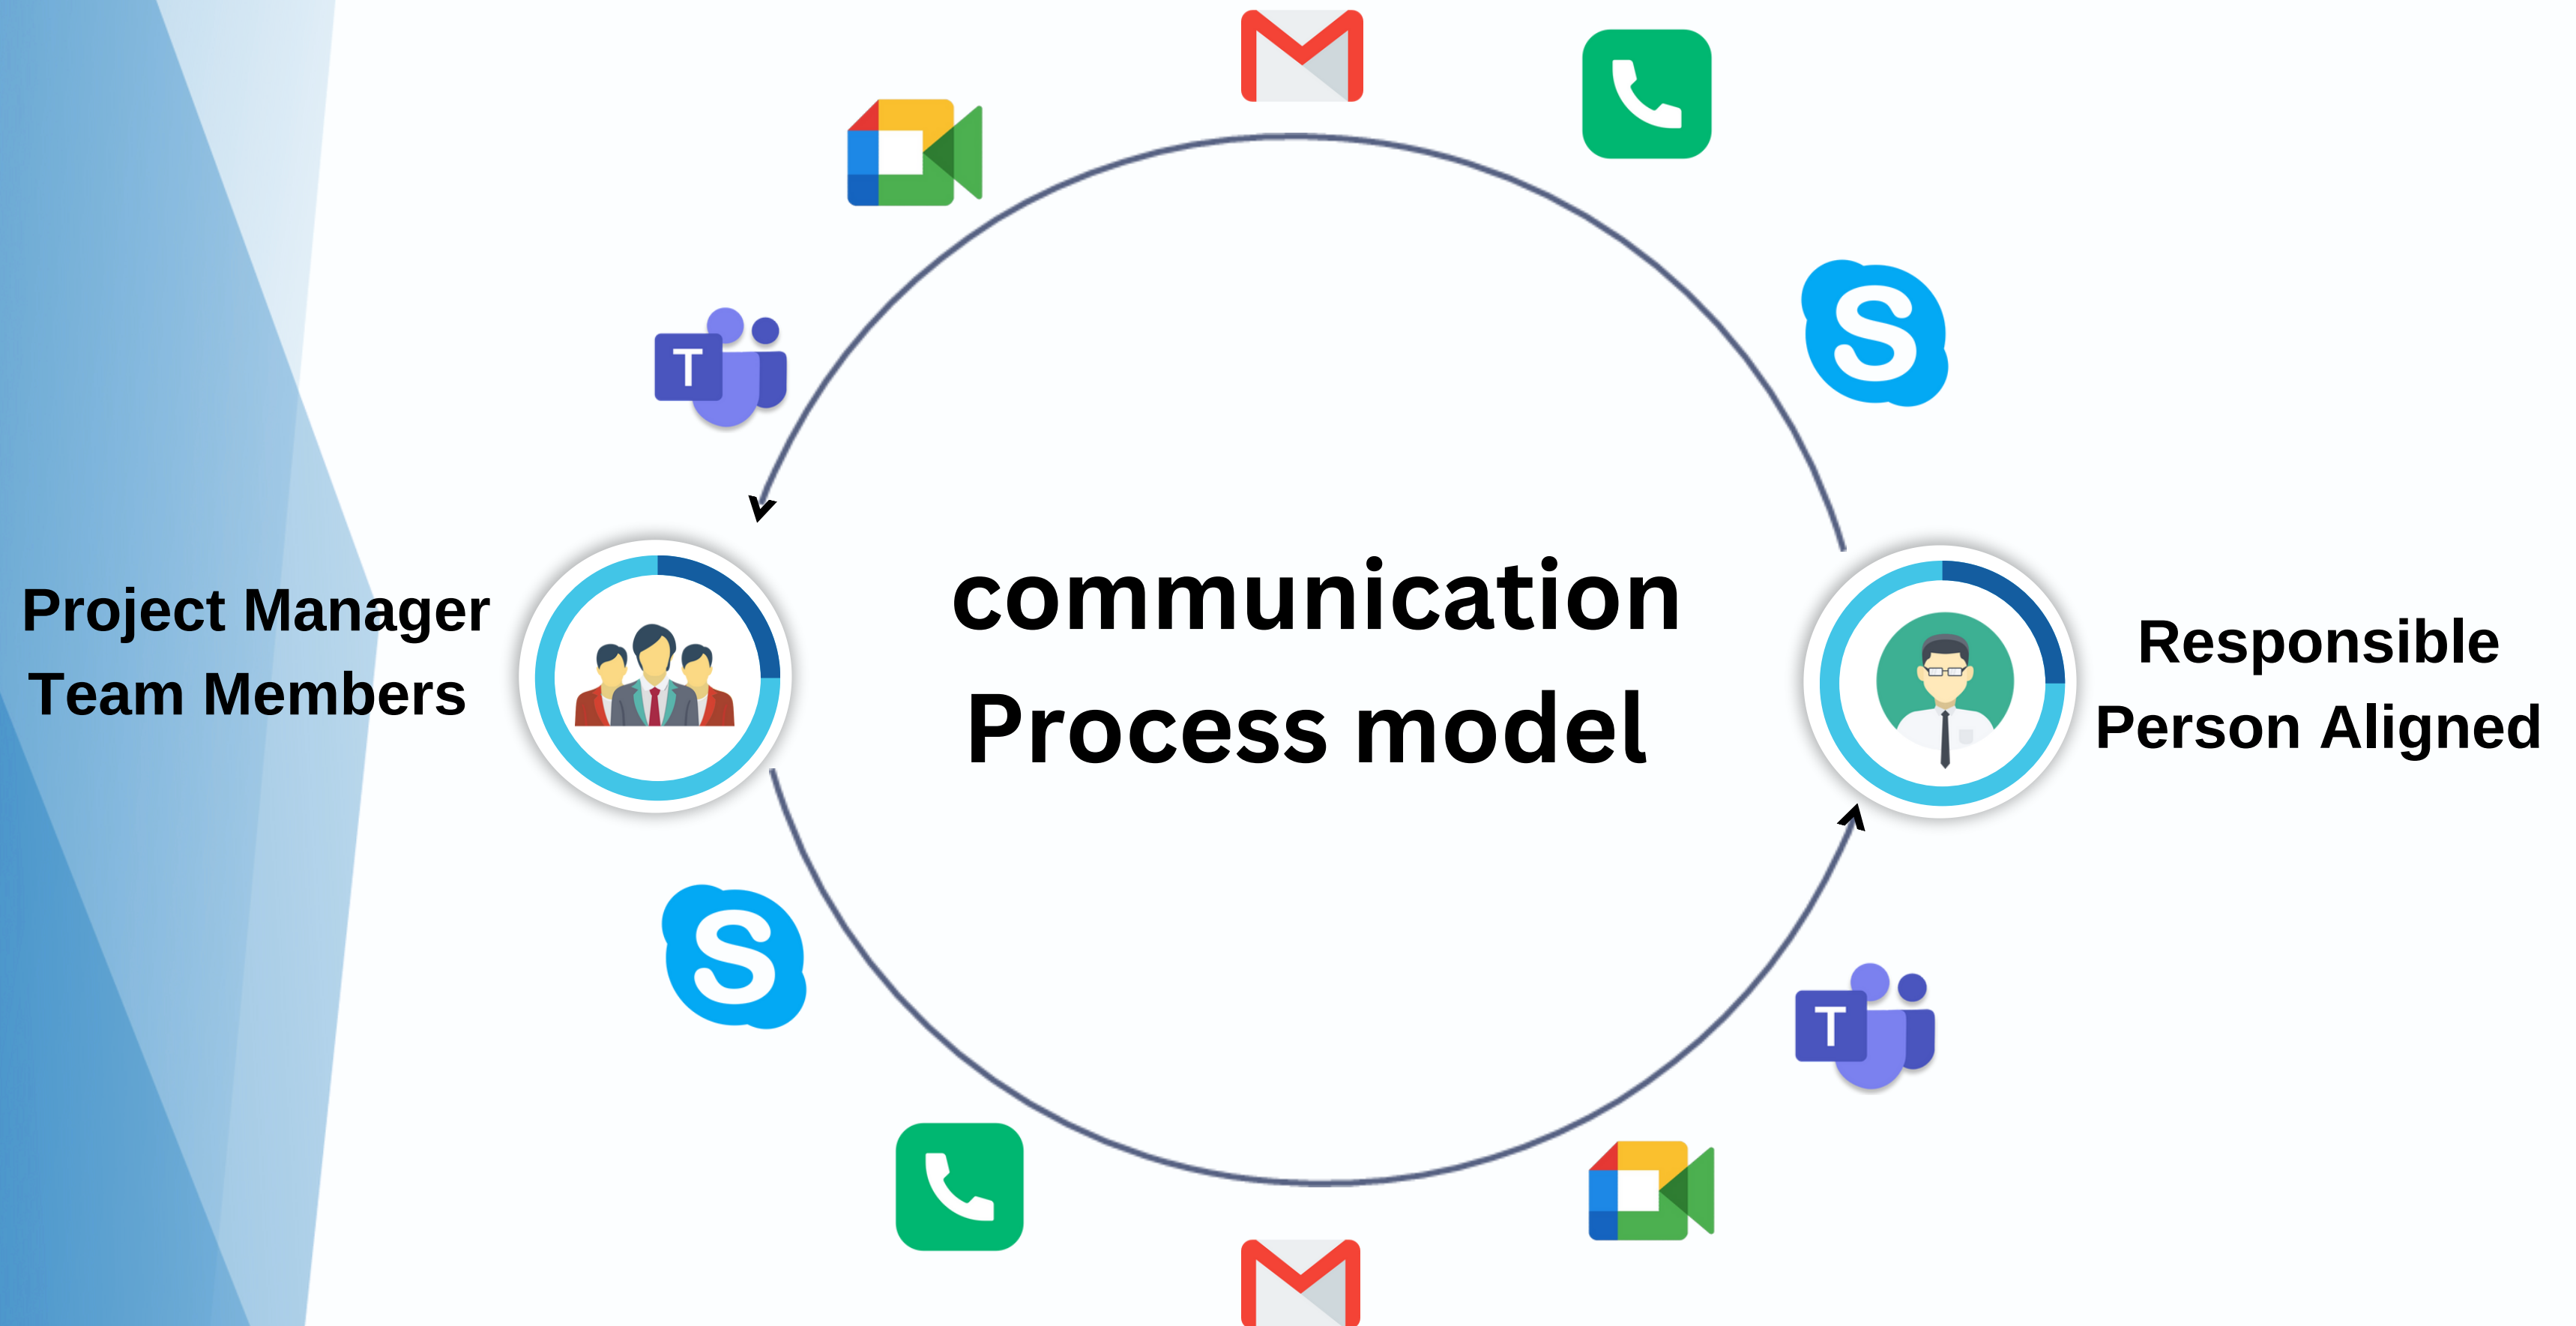

PROJECT MANAGEMENT

Communication Model

Escalation Matrix

Figure describes the general escalation review mechanism followed in Micraft Solutions. The same will be customized based on the project requirements.

Account Manager (AM)

- Second Level escalation point for the Client' Point of Contact (PoC)
- Resolves concerns raised by Client' Point of Contact (PoC) or Micraft Solutions Delivery Manager (DM), if they have not been settled within the mutually agreed time period at first level
- Resolves escalations related to overall relationship, contract, invoicing and billing.

Delivery Manager (DM)

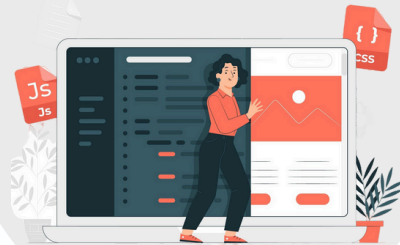

- First level escalation point for the Client' Point of Contact (PoC) for all project related issues
- Resolves unanswered issues / concerns raised by Client Point of Contact (PoC) or Micraft Solutions
- Project Manager (PM), if they have not been settled within the mutually agreed time period
-

Project Manager (PM)

- Initial Point of Contact for Client' Point of Contact (PoC)
- Responsible for project delivery
- Responsible for resolving project related issues raised by Client' Point of Contact (PoC)

Project Deliverables
